

Having a life limiting illness
is no reason to stop living.

7 STEPS

*for getting the most
from the rest of your life.*

**Hospice Services
of Lake County**

HOPE • COMPASSION • LIFE

1.

Take a deep breath!

You're scared. You're confused. You don't know what to do. There are so many decisions that have to be made.

Fortunately, you don't have to make them alone. Hospice Services of Lake County has the knowledge and experience to help care for those diagnosed with a life limiting illness.

Call us: it's never too early to get help. We can help you make those difficult decisions.

2.

Discuss options.

We will sit down with you, your caregiver and your loved ones to discuss the specifics of your situation and assess which services are right for you.

3.

Create a plan.

We will work with you, your loved ones and your doctor to create a personal plan of care. With a solid plan of care in place, most patients remain independent for as long as possible. In fact, with the right care, you can spend quality time with loved ones, achieve goals or pursue a lifelong dream.

4.

Feel better faster.

No one wants to be in pain, especially when you are seriously ill. Our care teams are specially trained in pain management. This makes them uniquely qualified to quickly get your symptoms and pain under control, leaving you free to appreciate life.

5.

*Remain independent
as long as possible.*

One way Hospice Services of Lake County helps you remain independent is by caring for you right where you are. Our Hospice team is more than happy to meet you at your private residence, assisted living facility or nursing home.

6.

*Make it
affordable.*

Dealing with a life threatening illness is enough of a burden without having to stress your finances too. That's why our services are covered by Medicare, Medi-Cal, private health insurance programs and the generous support of our community. You'll receive help regardless of your ability to pay.

7.

Receive medical, emotional and spiritual care.

A physical illness affects more than the body. It impacts the emotional and spiritual aspects of life as well. That's why our care team includes doctors, nurses, hospice aides, social workers, spiritual care-givers and volunteers specially trained to help you cope with every aspect of your illness.

Call Us Night or Day

707-263-6222

It's not unusual to have questions or concerns when dealing with a serious illness. We realize those concerns don't always come up according to someone else's schedule. That's why we're here whenever you need us — for emergencies or just a little extra compassion.

For more than 30 years, Hospice Services of Lake County, a community-based not-for-profit hospice has provided help and hope to seriously ill patients and their families in Lake County, California.
